SOLUTION PRESENTATION · LIVE DEMONSTRATION

Litigation Management System

One centralized platform for Bank Asia's legal and recovery lifecycle — from first notice to final settlement

27 October 2026

Live system: lms.skoder.co

Agenda

What we will cover today

01

Understanding Your Requirement

Objectives and challenges from the RFP

02

Solution & Architecture

Modules, integrations and deployment

03

LIVE DEMO

Live System Walkthrough

Dashboard, workflow and case management

04

Customer 360° & Reports

Consolidated view and regulatory MIS

05

Security & Compliance

Access control, audit trail and resilience

06

Implementation & Next Steps

Delivery phases and support model

Understanding Your Requirement

Moving the Legal Division from fragmented, manual tracking to one centralized, insight-driven platform

Today

Challenges in the current process

- Case tracking spread across branches, files and spreadsheets
- Risk of missed hearings, limitation dates and dormant cases
- Limited visibility of exposure and recovery per account
- Notices, opinions, documents and lawyer bills held manually
- Heavy manual effort to compile Bangladesh Bank reports

With the LMS

What the platform delivers

- One platform with a 360° view of every account and case
- Automated alerts for hearings, limitation, filing and appeals
- CBS-linked balances, statements and recovery tracking
- Central repository with maker–checker approval and audit trail
- Real-time dashboards and 48 MIS & regulatory reports

The Solution at a Glance

One integrated platform covering the complete legal and recovery lifecycle

31

Functional modules

Every RFP Section 8 requirement

48

Reports & MIS

Including Bangladesh Bank formats

6

Role profiles

Maker–checker segregation

360°

Customer & case view

Cases, documents and payments

The legal and recovery lifecycle, end to end

Pre-Litigation	Litigation	Auction	Recovery	Settlement
Legal & reminder notices	Lower court suits	Publication copies	Account statements	Compromise & solenama
Case merit analysis	Case steps & hearings	Bidder details	Jari certificates	CBS reconciliation
Property vetting	HC & AD matters	Final auction memo	Bill disbursement	Case closure

31 Modules Across Six Domains

Every functional requirement in RFP Section 8 has a working screen in the live system

Administration
7 modules

- User Groups
- Users
- Login & Access
- Parameters
- Court Holidays
- Lawyer Packages
- System Settings

Pre-Litigation
2 modules

- 1st Legal & Reminder Notice
- Case Merit Analysis (CMA)

Includes CBS customer lookup and land/property legal vetting

Litigation
8 modules

- Lower Court Suits
- Case Steps
- Arising Cases
- HC & AD Matters
- Cases vs. Bank
- Employee Affairs
- Warrant of Arrest
- Appeal Bail Money

Recovery & Finance
5 modules

- Auction Management
- Account Statements
- Jari Statement & Certificate
- Bill Processing & Disbursement
- Court Fee Return & Adjustment

Insight & Reporting
4 modules

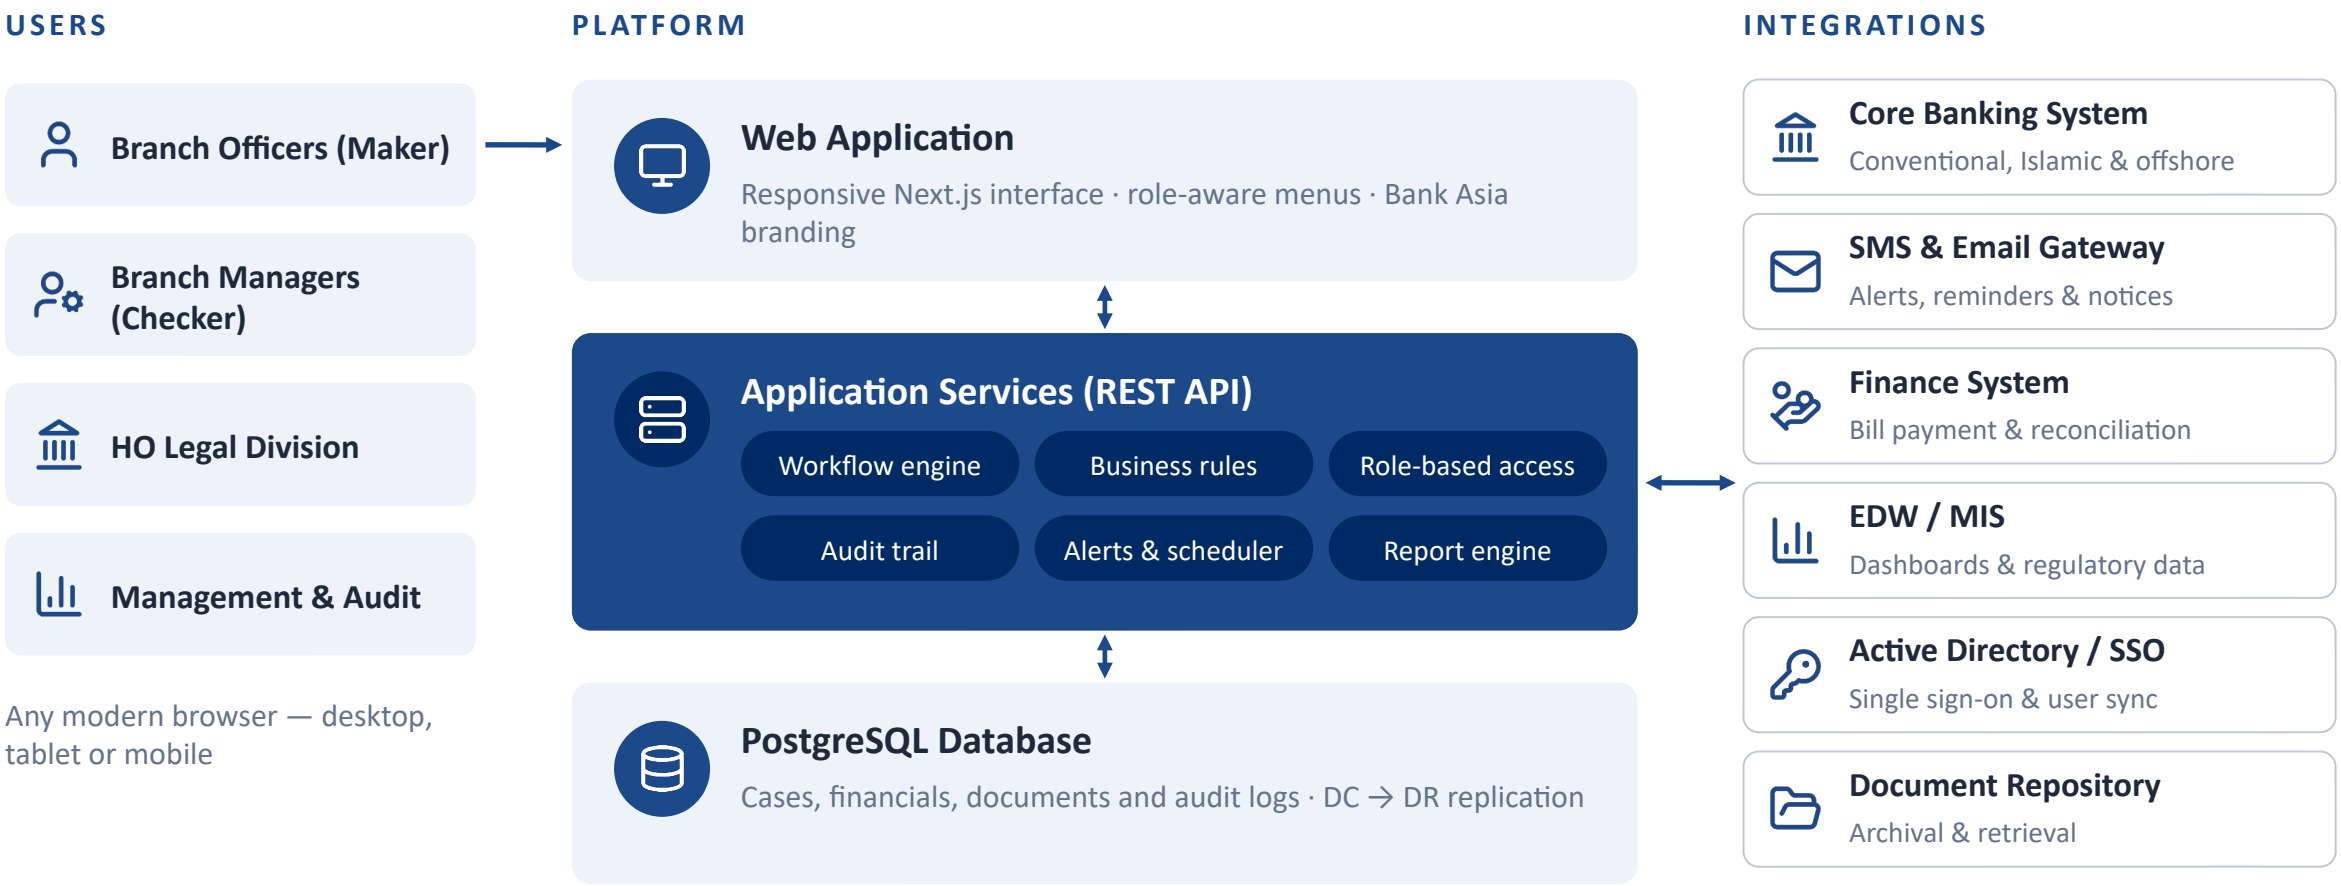

- Real-Time Dashboard
- Reports & MIS (48)
- Notifications & Alerts
- Customer 360° Search

Collaboration
5 modules

- Authorization Requests
- Document Repository
- Legal Memos & Notices
- Legal Opinions
- Task Management

Architecture & Integration

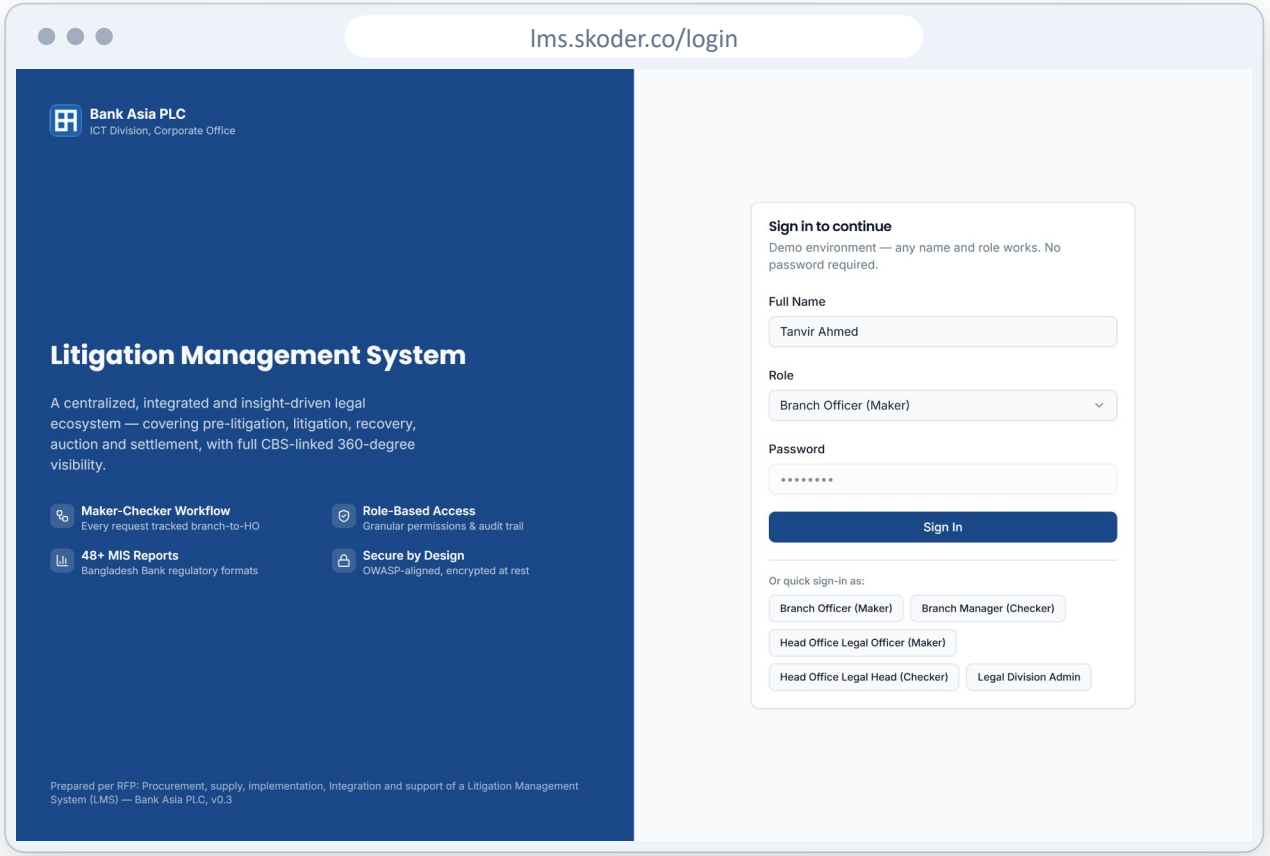

A modern N-tier platform, deployed on-premises at Bank Asia's DC and DR and integrated with core systems

Deployed on-premises at Bank Asia DC & DR · Integrations via REST/SOAP APIs, batch/ETL, message queues and SFTP · The live demo simulates CBS, SMS and email

Secure, Role-Based Access

Six role profiles with maker–checker segregation, applied to every screen and action

Live system · the demo uses quick role sign-in to switch between personas

Role profiles

- **Branch Officer** — Maker
- **Branch Manager** — Checker
- **HO Legal Officer** — Maker
- **HO Legal Head** — Checker
- **Legal Division Admin** — Configuration
- **System Administrator** — Security & settings

Access controls

- Group-wise menu and action permissions
- Password policy, CAPTCHA and 5-attempt lockout
- Session timeout and single-workstation login
- Active Directory / SSO and MFA on mobile

Real-Time Legal Dashboard

Branch-to-Head-Office visibility of workload, approvals, hearings and recovery (RFP §8.7)

1. **KPI tiles**

   Active cases, pending approvals, notices sent, upcoming hearings and approved legal expense

2. **Portfolio by status**

   Draft, pending, approved, returned and rejected at a glance

3. **Branch-wise volume**

   See where litigation is concentrated across branches

4. **Recovery vs. legal cost**

   Six-month trend for management review

5. **Today's activity**

   Live feed of actions across every module

Maker–Checker Workflow

Every request is made at branch level, verified at Head Office and recorded in a complete audit trail

Draft Saved → **Pending Approval** → **Approved** | **Returned** | **Rejected**

- **Draft Saved** — Created at branch
- **Pending Approval** — With the checker for review
- **Approved** — Moves to the next stage
- **Returned** — Back to maker with a reason
- **Rejected** — Closed with a reason

Checker view in the live system

Controls on every request

- Duplicate requests blocked while one is pending
- Return or reject always records a reason
- Editable only while Draft or Returned
- Status and full history available on enquiry
- Email & SMS alerts on initiate, reject and complete
- Every action stamped with user, role and time

Litigation Case Management

Every suit, step, hearing and cost — linked from the lower court to the Appellate Division

Lower Court Suits

Suit files, Arji and summons uploads, reassignment

Day-by-Day Case Steps

Hearing outcomes, next dates and lawyer expenses

Arising Cases

Execution suits and session cases linked to the original

HC & AD Matters

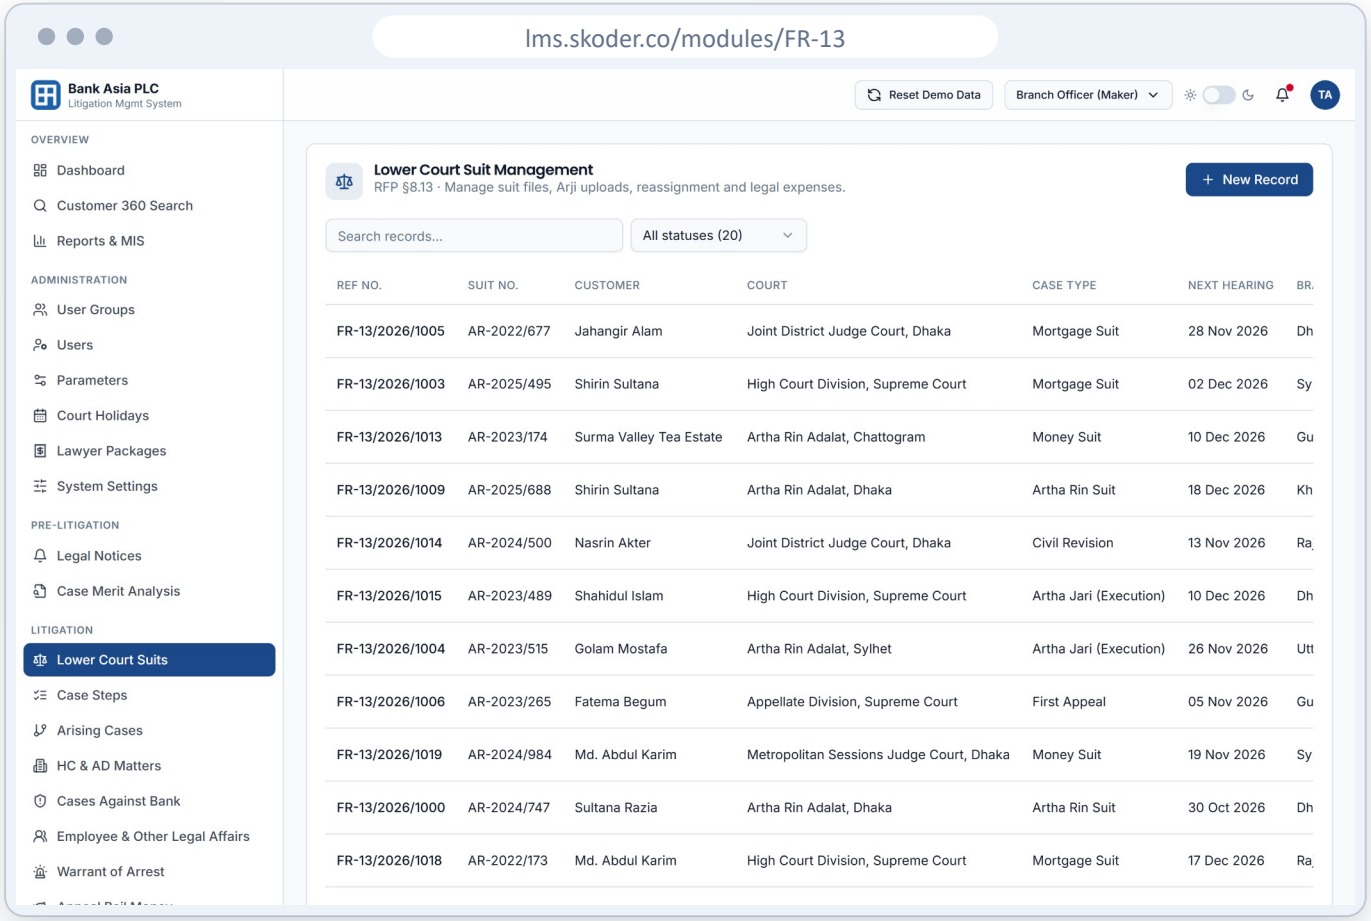

Filed against a lower-court case or independently

Cases Against the Bank

Plus employee-related and other legal affairs

Warrants & Bail Money

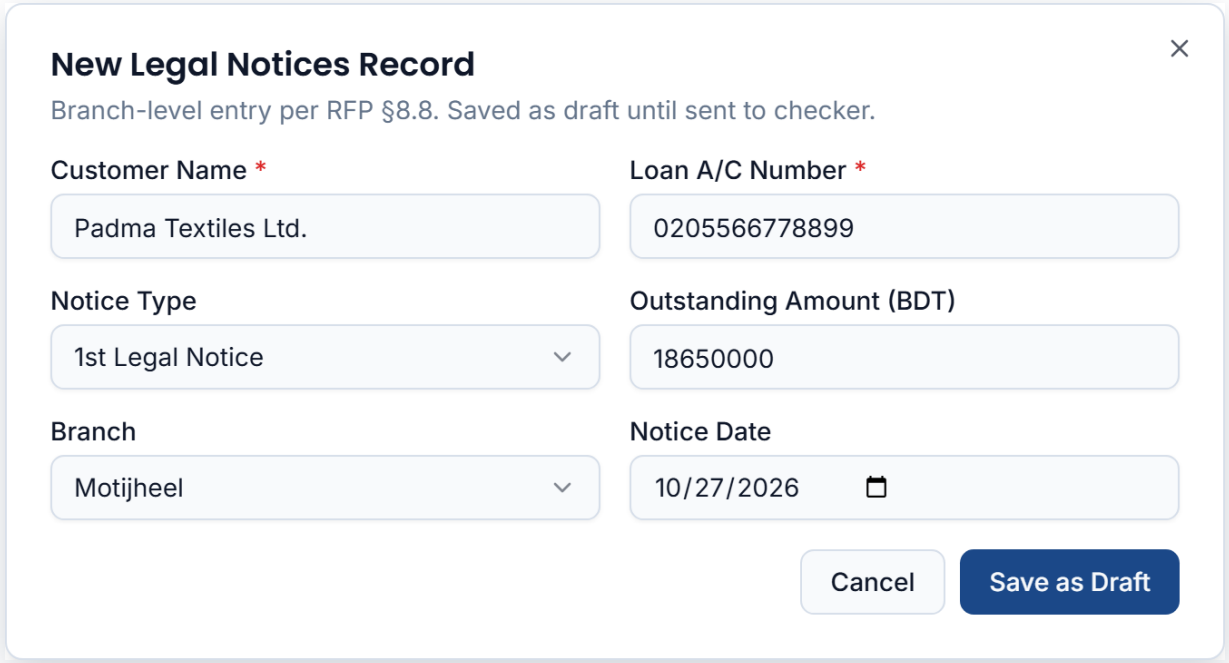

Issuance, execution, deposits and withdrawals

From First Notice to Recovery

Pre-litigation and recovery workflows, connected to Core Banking data at every step

1st Legal Notice — branch entry in the live system

Saved as a draft until a checker verifies it

Pre-Litigation

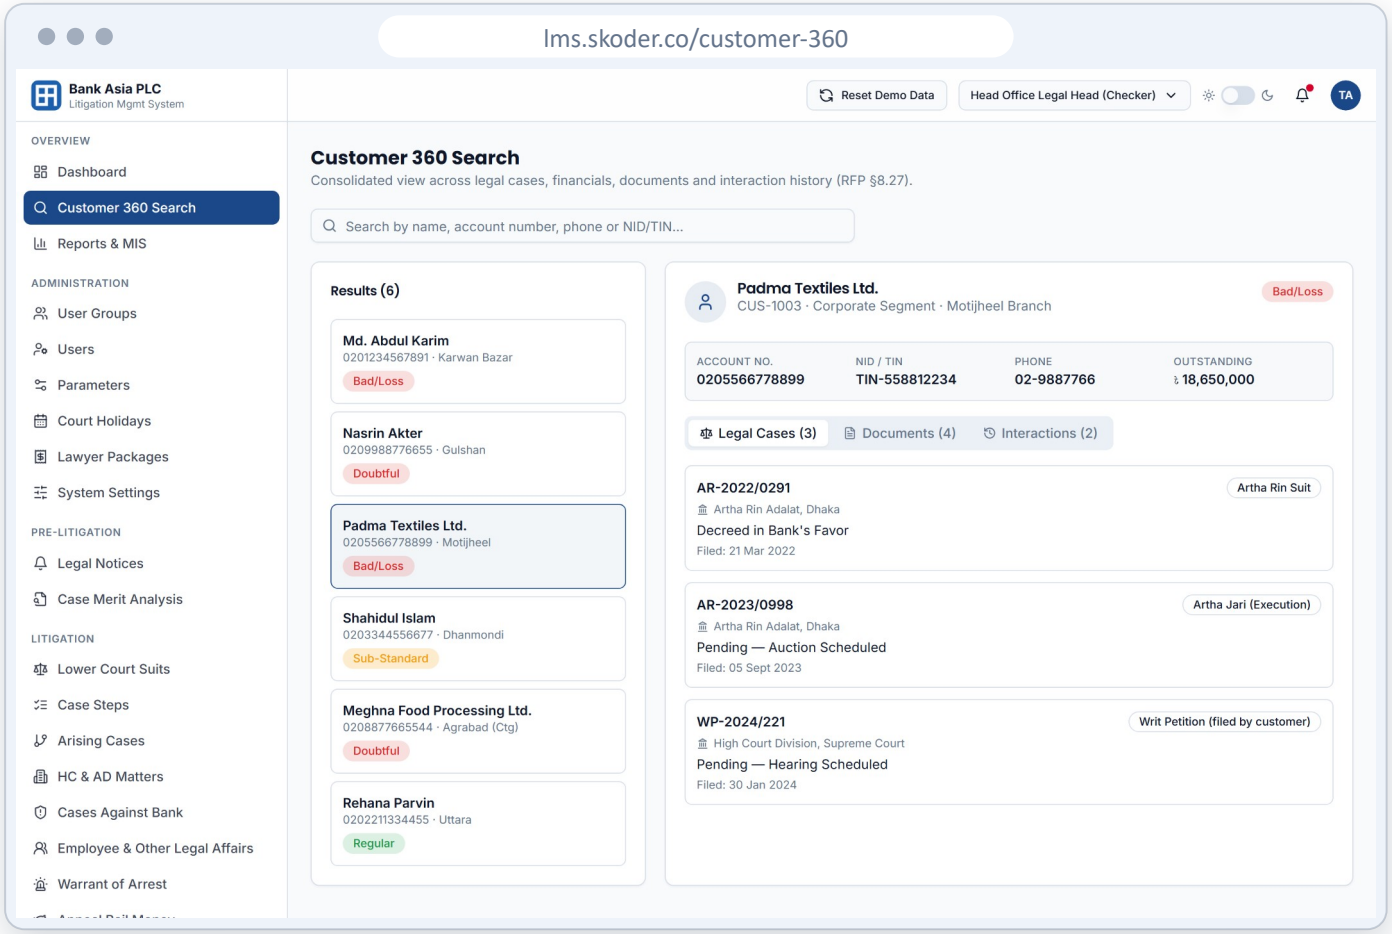

- 1st legal & reminder notices, CBS customer lookup
- Case merit analysis with security documents
- Land/property vetting with TAT and escalation

Recovery & Finance

- Auctions with statutory publication copies
- CBS-based account statements & Jari certificates
- Lawyer, court & publication bill disbursement
- Court fee return and adjustment

Customer 360° View

Every case, document, payment and interaction for a borrower — on a single screen (RFP §8.27)

Search by

- Name
- Account no.
- Phone
- NID / TIN
- Branch
- Case no.

Consolidated view

- Profile & loan classification
- All legal cases across courts
- Document history
- Interaction history
- Arrest & bail records

Reports & Regulatory MIS

48 reports across six categories — Bangladesh Bank formats generated on demand, not compiled by hand

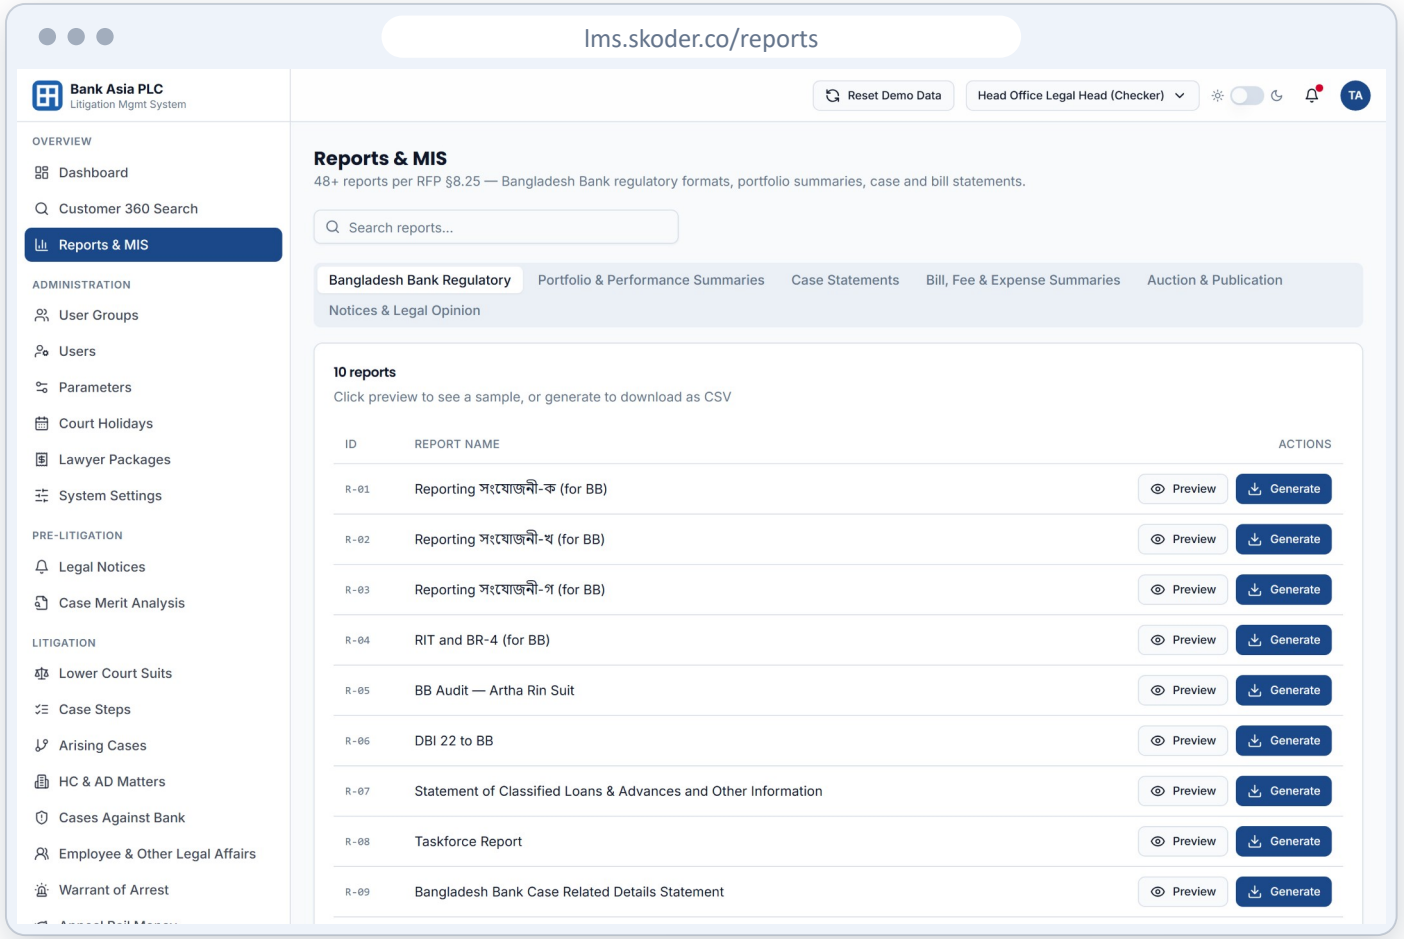

48

reports across six categories

Bangladesh Bank formats

- সংযোজনী-ক / খ / গ
- RIT & BR-4
- DBI-22
- CRMR
- ISS Report
- Classified Loans
- Risk-Based Audit
- BB Audit — Artha Rin Suit

Plus portfolio, segment, officer, lawyer, court, bill and recovery summaries — each previewed on screen and exported on demand

Built for a Regulated Bank

Security, auditability and resilience designed in from day one — aligned with RFP Section 7

Segregation of duties

Maker–checker on every request, with role- and group-wise permissions

Tamper-evident audit trail

Every login, change and approval logged with user, role and time

Data protection

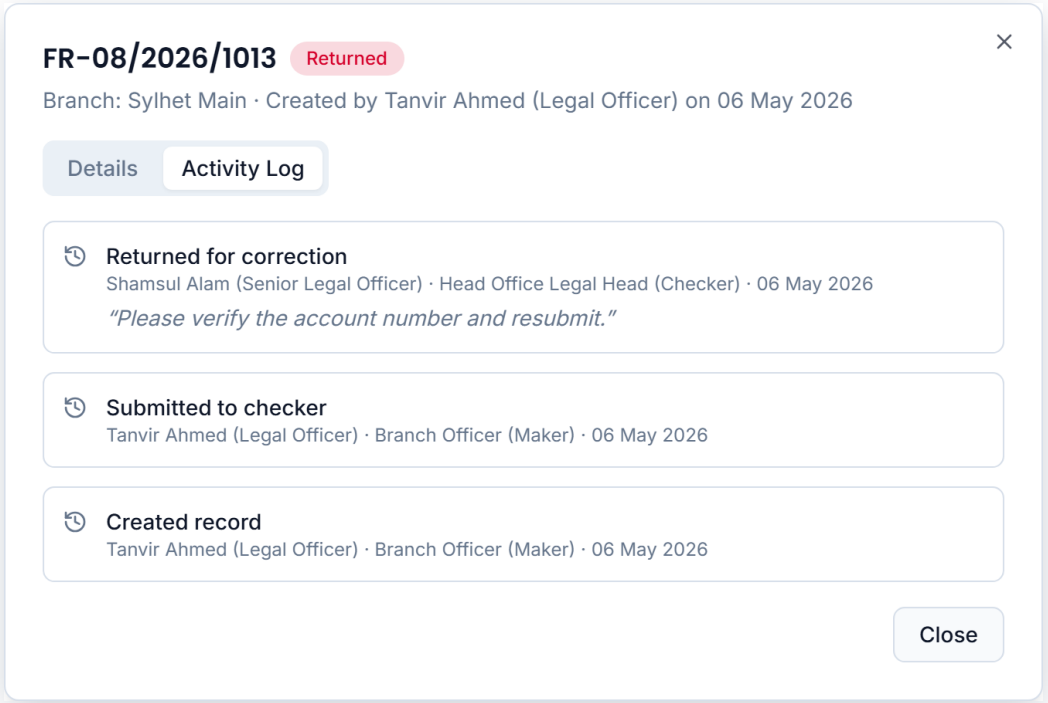

TLS in transit, encryption at rest and OWASP Top 10 controls

Resilience

On-premises DC and DR, module-level redundancy, no data loss on restart

Regulatory alignment

Bangladesh Bank reporting, risk-based audit and 4-hour breach notification

Live system · audit trail of a request returned by the checker, with the reason recorded

Implementation & Next Steps

A phased delivery with Bank Asia's Legal and ICT teams, followed by long-term support

1

Discover & Design

Requirement workshops
Gap analysis
Design sign-off

2

Build & Integrate

Configuration
CBS, SMS & email
Finance integration

3

Migrate & Test

Legacy data migration
SIT & performance tests
UAT with Legal Division

4

Train & Go-Live

Technical & user training
SOPs & handover
DC/DR cut-over

5

Support & Evolve

3-year warranty + AMC
24/7/365 support
Patches & upgrades

Thank you
